

Hello [Rep./Sen. _____]

As your constituent, I am writing to encourage you to support proven and effective global health and international economic development programs.

For example,

CHOOSE ONE OF THE FOLLOWING DEPENDING ON YOUR INTERESTS AND YOUR AUDIENCE

- ✓ PEPFAR has saved 26 million lives and enabled more than 7 million babies to be born HIV-free since 2003.
- ✓ Gavi has averted more than 20 million deaths and vaccinated 1.2 billion children since 2000.
- ✓ Gavi spends more in the US than the US spends on Gavi, making it a smart American investment.
- ✓ the Global Fund has returned more than \$3.5 billion to US companies through the purchase of medical supplies and technology in the past 15 years.
- ✓ the DFC supports private sector investment in the world's poorest countries in key sectors like infrastructure, critical minerals, and energy.
- ✓ the MCC works to reduce poverty through economic growth by partnering with countries that demonstrate a commitment to good governance and economic freedom.

I urge you and your colleagues in Congress to continue investments in this program and others with a strong track record, and to push the Administration to spend existing funds in line with the law. Thank you for your consideration.
